Positioned directly across from the neighborhood park, this distinguished Colonial Revival residence in Historic Crown Heights offers a rare blend of architectural presence, refined updates, and an exceptional setting. Defined by its iconic double gallery with distinctive mid-century railing detail and symmetrical facade, the home is further enriched by original Spanish tile framing the entry—an elegant nod to its layered architectural heritage. Inside, timeless design meets modern livability. The main level features a gracious living room anchored by a fireplace and filled with natural light, while the kitchen and dining spaces flow seamlessly for effortless entertaining. The kitchen is appointed with quartz countertops, custom cabinetry, stainless steel appliances, a center island, and designer tile work. A well-placed half bath completes the main floor. Upstairs, all 3 bedrooms are thoughtfully arranged alongside a hall bath. The generous primary suite offers original built-ins, a spacious walk-in closet, and a well-appointed en suite with double vanity, whirlpool tub, and walk-in shower. The primary and an additional bedroom open directly onto the upper balcony, offering views of the park and mature trees. The fully finished basement expands the home's versatility with a second living area anchored by a functioning wood-burning fireplace, along with a wet bar,
